Ms. Land:

I am a freelance journalist in Montana and am working on a book on the asbestos mess up in Libby. I got your name from Paul Peronard, who said you can probably help me track down some documents.

Specifically, I'm looking for materials that deal with the O.M. Scott company in Ohio. Apparently, they wrote two letters to the agency in 1978 and 1979, outling health problems at their plant, and sent the EPA a TSCA filing in that time frame as well (actually, these might be one and the same--I'm not sure). I'd also be interested in any other correspondence between any federal agencies and Scott, as well as between the EPA and W.R. Grace that rose out of the subsequent investigation into that incident.

Paul says he thinks you've got all this digitized. If so, an email copy would be fine with me. Please feel free to call or write me back if you need any clarification.

Thanks for your help!
